

Alignment of the STREAMin³ STREAM Games to the Virginia Early Learning Standards (ELDS)

The STREAM Games are an opportunity for preschool-aged children to continue to practice and retain the STREAM Skills that they have been learning throughout the curriculum. The games were intentionally designed to provide opportunities and support for practicing Think: Math or Communicate: Literacy skills. However, as children engage in these games, there are also many opportunities to support the other Core Skills. This integrated approach promotes learning and growth across a wide range of developmental domains, as is evident in the crosswalk to the Virginia Early Learning and Development Standards (ELDS). Therefore, there are many standards that are intentionally integrated into all the STREAM Games, including:

- ◆ **APL3. Executive Functions and Cognitive Self-Regulation:** managing emotions and behaviors to support focus and attention
- ◆ **SED1. Positive Self-Concept:** attempting new and/or difficult tasks, persisting, and exhibiting confidence or pride for accomplishments
- ◆ **SED3. Interactions with Others:** relating to peers/adults, engaging in positive interactions, and problem-solving with others
